PROFESSIONAL SUMMARY

Product Designer with 4+ years of experience designing digital products for clients and organizations across Egypt, Saudi Arabia, the United States, and the GCC. Experienced across enterprise portals, SaaS platforms, dashboards, e-commerce, and data-rich digital products, with strong ownership of UX/UI design from discovery and problem definition through research, ideation, prototyping, validation, and developer handoff. Skilled in UX research, usability evaluation, heuristic analysis, competitive analysis, information architecture, complex workflows, design systems, and component-driven design. Strong Figma proficiency with a product-focused approach to translating user evidence, business requirements, and technical constraints into clear, scalable experiences. Experienced in collaborating independently with product, engineering, development, and business stakeholders.

PROFESSIONAL EXPERIENCE

DigitalCar | UI/UX & Product Designer

Part-time | May 2026 – Present | Saudi Arabia

- Own UX/UI design for responsive digital product experiences, translating user needs and business requirements into intuitive and scalable solutions.
- Analyze user journeys, workflows, and information architecture to identify usability gaps, friction points, edge cases, and opportunities.
- Create concepts, user flows, wireframes, interactive prototypes, high-fidelity UI, and reusable components using Figma.
- Collaborate with stakeholders and developers during implementation to communicate design rationale, resolve design/technical trade-offs, and maintain design integrity.
- Apply user-centered design, interaction design, responsive design, visual hierarchy, and accessibility considerations.

Self-Employed | Freelance UI/UX & Product Designer

June 2023 – Present | Remote — Egypt & Saudi Arabia

- Lead end-to-end UX/UI projects across SaaS, e-commerce, websites, dashboards, mobile apps, and digital products, from discovery to delivery.
- Work with clients across Egypt, Saudi Arabia, the United States, and the GCC, translating client needs, business goals, and product requirements into scalable experiences.
- Conduct UX research, user interviews, competitive analysis, heuristic evaluation, journey mapping, usability evaluation, and user-flow analysis.
- Create concepts, wireframes, interactive prototypes, high-fidelity interfaces, responsive designs, and production-ready specifications in Figma.
- Iterate through prototype validation, stakeholder feedback, and usability insights to resolve workflow issues before development.
- Apply and contribute to design systems through reusable components, variants, Auto Layout, consistent patterns, and structured developer handoff.
- Collaborate directly with clients, developers, and cross-functional stakeholders, presenting design rationale and aligning solutions with user evidence and business requirements.

Selected Clients & Projects

- **Beauty Pie — United States** — Confidential product design project under NDA.
- **Bazzar Design — Saudi Arabia** — Web / E-commerce.
- **Drblo — UI/UX & Product Design Project.**

TMG Group | Portal & Application Analyst (UX)

January 2025 – March 2026 | Egypt

- Conducted UX audits and heuristic evaluations for enterprise portals and applications, identifying and prioritizing 30+ usability issues.
- Analyzed complex workflows, user journeys, information architecture, and data-heavy interfaces to identify usability gaps, friction points, and edge cases.
- Simplified complex enterprise workflows and data-rich interfaces to improve usability, clarity, and efficiency.
- Collaborated with PMs, developers, and business stakeholders to translate UX findings into product and interface improvements.
- Contributed to scalable design systems, reusable components, and consistent interaction patterns.
- Communicated UX findings, design rationale, and recommendations to support product decisions and prioritization.

Cycle Middle East | Account Manager — UX/CX Focus

February 2024 – December 2024 | Egypt

- Aligned customer needs, business objectives, and UX goals to identify product and experience opportunities.
- Gathered user feedback through interviews and journey mapping.
- Collaborated with design, product, development, and business teams to prioritize opportunities based on user impact and business value.
- Facilitated stakeholder discussions and translated requirements into actionable solutions.

Glowing Games | Game Operations Analyst

July 2022 – May 2023 | Egypt

- Analyzed operational workflows, dashboards, and data-rich interfaces to identify inefficiencies and usability gaps.
- Improved reporting and data presentation to support clearer and faster decision-making.
- Collaborated cross-functionally on workflow and operational optimization.

CORE SKILLS

Product & UX Design: Product Design • End-to-End Design • User-Centered Design • Problem Definition • User Flows • Information Architecture • Complex Workflows • Journey Mapping • UX Research • User Interviews • Competitive Analysis • UX Audits • Heuristic Evaluation

Research & Validation: Usability Testing • Usability Evaluation • Prototype Testing • Iterative Design • User Feedback • Research Synthesis • Design Validation

UI & Interaction Design: Wireframing • High-Fidelity UI • Interactive Prototyping • Interaction Design • Responsive Design • Visual Hierarchy • Microinteractions • Production-Ready Design • Data-Rich Interfaces • Dashboards

Design Systems & Figma: Figma • Components • Variants • Auto Layout • Design Systems • Reusable Patterns • Component-Driven Design • Design Documentation • Developer Handoff

Accessibility & Inclusive Design: Accessibility • WCAG 2.1 Principles • Accessible Interaction Patterns • Inclusive Design

Product & Cross-Functional Collaboration: Product Thinking • Design Rationale • User Evidence • Product Requirements • Stakeholder Communication • Product & Engineering Collaboration • Cross-functional Collaboration • Design Reviews • Workshops • Agile/Scrum

AI & Emerging Product Design: AI-Assisted Design Workflows • Generative AI for Design Exploration & Prototyping • AI-Powered UX Concepts • Human-Centered AI Design

TOOLS

Figma • FigJam • Adobe Creative Suite • WordPress • Elementor • Wix

EDUCATION

Route Academy — UI/UX Diploma | 2023

El Shorouk Academy — BBA — Accounting & Management | 2018 – 2022
